Sarah,

We have no changes to the agenda. Greg Kinser, Mike Hill, and I will attend in person, and Jeff Bennett (Barr) will attend by phone. If there is a number he should call in to, let me know. Otherwise, I will make sure I know what number to reach him at. Thanks.

Daniel Schaufelberger, Brian Dickens, Randall Robinson (from the Air Division) and Louise Gross (from ORC) will attend this meeting.

Sarah:

It looks like January 11th is the preferred day. Will you send me details when you have them – room number and time? We are not yet sure if the out of town folks (Jeff Bennett from Barr and Mike Hill from the plant) will be present or participate by phone, but Greg Kinser and I, who are in Chicago, will come to the Region 5 office. Thanks.

Good morning Matt,

I checked with our enforcement team and could not find a date that would work for everybody. I am proposing to have this meeting in early afternoon on either Wednesday January 10th or Thursday January 11th.

Please let me know if either of these dates would work for you all.

Best,

Sarah:

I have been working on coordinating schedules. How are the following dates: the morning of December 8th (ending before 11:00), or any time on December 19th? If either of these work, can you pick one, and if not, I can work on other dates. December 4th-8th and December 19th-22nd seem to work best for our group. Those attending would be the following:

Greg Kinser, USG Environmental Director
Mike Hill, USG Red Wing Plant Manager
Jeff Bennett, Barr Engineering, Air Consultant
Matt Cohn, Greensfelder, Outside Counsel

Also, we are not sure yet if the non-Chicago folks will be able to come in, and so we may need to have the option of participation by phone - to be determined.

I look forward to hearing from you.

Subject: USG Red Wing, MN - Draft Agenda

Good morning Matt,

Per our previous conversations, and after talking with Daniel and our management, I am proposing this draft Agenda for the upcoming meeting between EPA and USG regarding the Red Wing, MN facility.

1. USG's current plans for SO2 modeling
2. Production outlook and possible upcoming significant changes to the Red Wing facility
3. Ambient air monitoring

This is a draft Agenda - we are happy to include any additional topics you would like to discuss.

Please let me know UGS's availability for a meeting during the weeks of Nov. 6th & Nov. 13th and the month of December.

Thank you.
